Message body:

Hello RocketMQ 0

Consumer

```

31 public class Consumer {
32
33     public static void main(String[] args) throws InterruptedException, MQClientException {
34
35         /*
36          * Instantiate with specified consumer group name.
37          */
38         DefaultMQPushConsumer consumer = new DefaultMQPushConsumer( consumerGroup, "cx-test-group");
39
40         consumer.setNamesrvAddr("47.102.136.138:9876");
41         consumer.setConsumeFromWhere(ConsumeFromWhere.CONSUME_FROM_FIRST_OFFSET);
42
43         /*
44          * Subscribe one more topic to consume.
45          */
46         consumer.subscribe(topic, "cx-test-topic", subExpression: "*");
47
48         /*
49          * Register callback to execute on arrival of messages fetched from brokers.
50          */
51
52     }
53 }

```

Consumer Started.
